Dear FCC:

Dear sir. I feel that we are over taxed on everything we do and use now, it is nice to have a low cost phone for ocasional use for safety when traveling . It is very rare when we use these phones for interstate call's. So if it is imposible for us to have a reduction in taxes , Please let us not have an increase. Increased taxes of any kind are only going to harm production and hender economic recovery.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Jerry Parsley
